

## **Net Service ASTREA Case Management System for The European Court of Justice**

*ASTREA is the technological solution engineered by Net Service and deployed by the Court of Justice of the European Union to upgrade and modernize the management of its judicial procedures.*

The **Court of Justice of the European Union** in 2019 launched a call for tenders for the implementation of an integrated management system (Adaptive Case Management System).

The objective of this tender is to increase the efficiency of the whole institution and improve the interoperability of information technologies between the Court and many stakeholders. The design, development, and commissioning activities are financed by a 5 -year Framework Contract for a value of 26 million euros.

The winning Consortium of companies consists of **Net Service** as the leading enterprise and **Charles Oakes Ltd** as the principal.

Gianluca Ortolani, CEO of Net Service, commented as follows:

*"We are enormously proud of this success. After a long and demanding selection process, the European Court of Justice has prized our team of engineers and our technology. This endorsement, received by the highest guarantee institution in Europe, recognizes the hard work carried out over the years by our Group. Net Service with this achievement can be considered as one of the main IT players in the e-Justice sector".*

Cristiano Morganti, CEO of Net Service Lux, also commented:

*"We are confident that this is the beginning of a long and fruitful partnership with the Court of Justice of the European Union. The institution's needs and objectives will blend in perfectly with Net Service Group's DNA".*

Rocco Antonio Cangelosi, President of the Net Service Group, concluded:

"Net Service and its leadership position for the realization of this ambitious project confirms the great capabilities of the Italian entrepreneurship also for the most technologically advanced sectors. Thanks to the empowerment and sophistication of the e-Justice sector with our technology, we will contribute to the pursuit of the objective of a faster and more efficient Justice within the framework of national and international institutions. We are grateful to our diplomatic authorities and in particular to the Italian Embassy in Luxembourg for its support in promoting Italian companies operating in strategic sectors".

Net Service occupies a leading position in the **national and international Digital Justice sector**, operating since 2001 as a partner of the Italian Ministry of Justice, then internationally taking part in various European initiatives in the field of e-Justice.

At the time being, Net Service is the primary supplier of the emerging European Court of Trademarks and Patents (Unified Patent Court) following the award of the international tender for the supply of the integrated management information system. ASTREA Case Management is again the core digital platform of the IT project.

### **NET SERVICE S.p.A.**

Net Service S.p.A. designs and develops secure and tailored IT solutions and services from 1997. The company has both the technology and know-how to design and manage the digitization of management and business processes for both Small, Medium and Large Enterprises as well as the Public Administration. Its strength lies in engineering cutting-edge technological solutions that will integrate perfectly with the pre-existing IT ecosystem.
